

At Plan A, we know TiLOS. We've spent the last 12 years mastering the best in project planning software. We know what we're doing, and we know how to help companies achieve success when it comes to project planning.

## CAPABILITY STATEMENT

### CORE COMPETENCIES

Our Speciality is the creation, analysis and conversion of P6 civil programs to Time Chainage (TILOS). This relatively new style of communication can be applied to any project at any stage: Megaproject, Greenfield, Regional, linear, Non linear, Brownfield, WIP, Tenders, The end product results in project wide collaboration, direction and understanding.

## PLAN A

### COMPANY OVERVIEW

Plan A was started in 2019 by Luke Charet, after recognising the value in offering project planning support exclusively with TILOS. In the past few years, Plan A's developed an extensive client list, which includes contractors for both government and private agencies all across Australia. As far as time chainage software goes, tilos is unrivaled, and Luke's understanding of the software has him leading the project planning industry.

### VISION

Our vision is to make programs accessible, understandable, versatile, and accurate. We see Tilos as the future of Planning.

### DIFFERENTIATORS

With over 20 years of experience in project planning and management, Luke has been adapting and implementing the most updated and current techniques on the market. This has given him an industry edge that allows him and Plan A to produce tremendous value through their TILOS outputs for some of the biggest names in construction and projects across Australia.

### SERVICES

P6 to Tilos Conversions – Includes Analysis, Improvements, Presentation

Tender Construction and Delivery in Tilos (Dynamic Planning)

End of Month Status Updates (Tilos → P6 output)

Training in Tilos (Beginner to Advanced – Group/ One on One)

Tilos License Sales and Distribution

At Plan A, we work exclusively with TiLOS, which means we know exactly how it works and exactly how to make it work for you. We work with the time chainage software to provide customers with the clearest data visualization for completing linear projects.

From tender program delivery to initial assessments, setting milestones, or reviewing logic and detecting irregularities, we use TILOS to develop clear, cohesive outputs for your company to work with.
